Beige Is Beautiful

Out of this world designs are kept surprisingly down to earth in this paradise home of sandy hues.

Of all the versatile colours in this world, one of the most applied hues used for interior design would have to be beige, for the homey feel it conjures up and let's face it, it's a very comforting colour. In this glorious residential home, beige tones play an important role in bringing together the intricate interior design elements. Completed by the design team from LNS Renovation & Construction, the spaces are implemented with forms and materials that map out a clear sense of direction. Rightfully running with a modern concept for this home, bronze mirrors and craft stone walls are used to create an eye-catching feature wall in the foyer. The living area focuses on a unique wood panelling applied on the walls and ceiling, once again tinted in a rich beige tone. White has been used to complement the light to dark sandy tones in each space, harmonizing between every element. The only room that distances itself from the creamy brown family is the daughter's room, which is age-appropriately themed pink. It does not feel disconnected from the rest of the house as the design team brilliantly used carpentry to tie every space together in a uniformed conjunction.

线的美感

线条的利用和表达，往往是室内设计重要的语言……

线在造型艺术中具有特殊的地位，它可以从感性上将情感表现得深入细腻。线的和谐组合具有美的感染力，因此，线在室内设计中也有广泛的应用价值。LNS的设计师借助线条的不同手法裁出此案的独特。本案整体空间以咖啡色为主，让空间弥漫着淡淡的温馨感。客厅的电视背景墙以咖啡色横条型设计垫底，配搭白色电视框框，呈完美的视觉效果。白色的沙发和黑色条纹大理石矮型桌，让空间散发出尊贵感。天花板融入切割手法，增加空间的层次感。客、餐厅之间有一幅造型墙做间隔，凹凸的褐色横条错综复杂，有着超凡的视觉感，对面的落地门后，是绿意盎然的风景，阳光洒入室内，舒适安逸。餐厅的白色餐桌椅彰显了低调优雅的氛围，让用餐区变得不那么沉默无趣。二楼里的墙面、天花板、窗帘，都延续了大厅的设计风格，让空间有了理所当然的关联与流畅性。设计师在主卧室以简洁和纯净来调节的休息空间，但又不失自我风格；女孩房则加入了粉红色元素，整个空间予人一种糖果般的甜丝丝味道。
